100-210 mm

55-70 mm

1,6-2,1 mm

ca. 200-400/m²

This product is available in a range of models. The possible combinations must be individually tailored to your needs. We will be happy to provide you further information in person.

CottonFlex

Traditionally, high-quality cotton inner-springs from AGRO stand for the highest performance

The cotton pockets are glued together and made from 100% breathable and tear-resistant natural material, making the innerspring particularly dimensionally stable and providing a unique lying comfort

AGRO springs are manufactured using new, state-of-the-art production technology. The thermal treatment guarantees low settlement, excellent hardening of the springs and high dimensional stability

With a pocket height of up to 8 inches (20 cm), CottonFlex impresses across the board
