This product is available in a range of models. The possible combinations must be individually tailored to your needs. We will be happy to provide you further information in person.

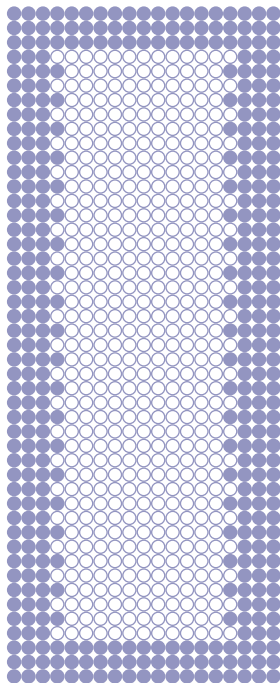

Firm frame with the firm outer springs giving support right to the edge

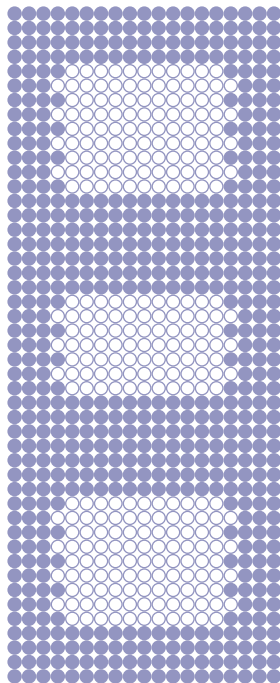

Allows for eliminating the foam encasement – Make use of the benefits of innersprings for the whole mattress surface in place of foam and improve the environmental credentials of your mattress by using edge-to-edge innersprings – which are recyclable – in place of foam
